Older Challenger / Pursuit	1,768 cc	PowerPlus 108 on applicable model years

Model / family	Engine capacity	Engine / notes
Older Chief / Chieftain / Roadmaster	1,811 cc	Thunderstroke 111 on applicable model years

Notes

• cc means cubic centimetres, a measure of engine displacement.

• Approximate conversions: 60 cu in ≈ 983 cc; 69 cu in ≈ 1,131 cc; 111 cu in ≈ 1,811 cc; 116 cu in ≈ 1,890 cc; 112 cu in ≈ 1,834 cc.

• Some 2026 model families offer different engines or special editions. The table groups models by common engine family and includes selected older versions for reference.
